5. Screenshot showing the coverage result/comment on the pull request

The screenshot displays a GitHub pull request interface. At the top, a status bar indicates the pull request is merged, showing the commit history and the workflow used. Below this, a 'Quality Gate passed' section provides a summary of issues and measures. A 'Coverage report' section follows, showing the current coverage percentage and a note about the pull request's impact on the code. The bottom of the interface shows the pull request was successfully merged and closed, with a button to delete the branch.

(initial coverage)

The screenshot shows a VS Code editor window with the following components:

- Explorer:** A sidebar on the left showing the project structure. The file `calculations_test.py` is selected under the `tests` directory.
- Editor:** The main workspace shows the content of `calculations_test.py`. The code includes a test function `test_get_nth_fibonacci_ten()` with a docstring and a `result` variable.
- Terminal:** A terminal window at the bottom displays the output of a `python -m pytest --cov=src --cov-report=term-missing` command. It shows a coverage report for the project.

The coverage report in the terminal is as follows:

```
===== tests coverage =====
coverage: platform linux, python 3.13.15-final-0

Name                Stmts   Miss  Cover   Missing
